ALLOWANCE FOR CITY PARKS

LENGTHY DISCUSSION ENDS IN APPROPRIATION OF \$5,000.

Petition Protesting Against Present Huckerster Licenses Presented With Signatures of 204 Business Men.

The city council met in regular session last evening, all members being present. Regular business was transacted and was followed by a lengthy discussion in regard to the amount to be allowed the park commission for the maintenance and improvement of city parks for the coming season. It was moved to allow the sum of \$10,000, but a discussion arising as to the advisability of allowing the street crossings at the various intersections throughout the city to remain unfinished for another year, the sum suggested was finally cut in half, \$5,000 being appropriated.

Owing to the absence of City Recorder Brown, the place of clerk was supplied by Deputy Matilda Hancock. The minutes of the previous meeting were read and approved, after which the regular accumulation of business was transacted.

Attorney Joseph Chey was given permission to address the council, which he did, presenting a petition signed by 204 business men of the city protesting against the present huckerster license and asking that street merchants, vendors and huckersters be subjected to a license equal at least to one half the amount of the reasonable rent for a store, and that no licenses be issued for less than six months. President Carver, of the Retail Merchants' association, also addressed the council along the same lines. The matter was finally referred to the special ordinance committee and the city attorney on motion of Councilman Flygare.

City claims amounting to \$2,538.51 were allowed and the auditor instructed to draw the necessary warrants.

A report of the police committee recommending that the liquor license of the Apex saloon be revoked on account of the present charges of robbery being preferred against the proprietors, Bramlett & McGuire, and that no license be issued for a continuance of the saloon business under the roof of the establishment mentioned for the remainder of the current license period, was adopted on motion of Councilman Humphris.

The annual report of the street department was ordered filed and a vote of commendation extended the street supervisor for his good services on motion of Councilman Thomas.

The annual report of the sanitary department was accepted and the sanitary inspector was extended a vote of commendation for his services during the year. A similar action was taken in connection with the report of Joseph Saunders, of the building and grounds department.

Chairman C. Frazzini, of the special committee appointed to solicit funds for the Italian earthquake sufferers reported that the committee had raised a fund of \$455.50, and there had been personally solicited the sum of \$411.35, making a total of \$866.85. This amount, it was stated, had been turned over to the proper authorities.

A communication from the city engineer in regard to cast iron monuments for surveyed corners to replace the old stone monuments, which have been partially destroyed, was referred to the law committee on motion of Councilman Thomas.

A communication from the chief of the fire department, asking that the salary of Fred Paine, employed at the station as house boy, be raised from \$40 to \$50 per month, was referred to the fire committee on motion of Councilman Flygare.

Clerk Fulton's report of municipal collections amounting to \$2,804.50, was ordered filed.

The report of the street department was referred to the street committee, and the report of the sanitary committee was ordered filed. The report of the sanitary inspector showing a total of eight contagious diseases existing during the past two weeks, was ordered filed. The report of the chief of police was referred to the police committee. The report of the police tax collector was ordered filed and the claim of Collector Harris for \$48.60, due in commission, was allowed on motion of Councilman Flygare.

City pay rolls amounting to \$706.42 were allowed, and the city auditor was instructed to draw the necessary warrants.

The statement of interest due on water bonds, amounting to \$2,446.02, and payable at the Chase National Bank of New York, was read and the claim was allowed.

The city auditor's report was ordered referred to the finance committee.

A statement from the treasurer showing a balance of cash on hand amounting to \$48,910.06, was referred to the finance committee and, on motion of Councilman Peery, the treasurer was instructed to make a similar report each week of the cash on hand.

On motion of Councilman Thomas, the salary of Assistant Auditor Walter Folger was raised from \$1,000 per year to \$1,100 per month, the increase to commence with February 1, 1909.

On motion of Councilman Flygare the matter of special taxes levied on Twenty-fourth street, between Grant and Washington avenues as a paving district, was referred to the street committee and the city attorney.

A communication from the city attorney enclosing a number of letters and telegrams in relation to the water works bonds and interest due thereon, together with a recommendation in relation to the same, were read and the latter adopted on motion of Councilman Flygare.

The report of the city sexton was ordered filed.

The bids for repairs on sprinklers were opened and read as follows:

Ogden Machine & Carriage Co., \$526.50; Anderson & Larson, \$262.25; George Huss, \$395; Savage & Hune, \$568; J. M. Larson, \$273. It was moved to refer the matter to the water commission and the street supervisor, but Councilmen Dana and Wilson objected, holding that the lowest bidder should be given the contract then and there. Councilman Wilson's motion to that effect was then carried, the work to be done under the supervision of the road supervisor. The bids on repair of wheeled scrapers were as follows: Ogden Machine & Carriage Co., \$40.25; Anderson & Larson, \$22. The latter firm was given the contract with the conditions above prescribed on motion of Councilman Thomas.

The bond of Charles H. Kircher, amounting to \$25,000 required in connection with the latter's position as water works treasurer, was approved. The bond was furnished by the U. S. Fidelity & Guaranty Co.

A claim of the Spargo Book Co. for \$2 for paper, was allowed, as was also a claim of the city attorney for phone calls amounting to \$2.80.

A requisition from the street department for two dozen street brooms, was granted.

An application from Bateman Bros. for a cement workers' license, was granted, and their bond approved.

A claim of the waterworks department for office furnishings amounting to \$1.19 was allowed. A petition from residents in the vicinity of Thirty-first street, asking for an extension of water mains, signed by C. A. Christensen et al., was referred to the special water committee.

A communication from George J. Kelly relating to a remission of certain taxes was referred to the tax committee on motion of Councilman Thomas.

A petition for repairs on Sullivan avenue between Quincy and Van Houten avenues, signed by Joseph Welch et al., was referred to the street committee.

A petition of Gamble, Robinson & Co., for permission to build a spur of railroad to their contemplated fruit warehouse at Twentieth street and Wall avenue, was referred to the street committee, the city engineer and the city attorney.

A resolution remitting certain curb and gutter taxes to Mr. Stone was adopted on motion of Councilman Thomas.

On motion of Councilman Humphris, the police committee was instructed to have printed 100 copies of the annual report of the chief of police as had been done in past years.

The matter of appropriation for the park commission was then introduced by Councilman Dickson, who moved that the sum of \$10,000 be allowed for the maintenance of the parks of the city and the continuance of the improvement work previously inaugurated.

Councilman Flygare amended the motion to appropriate the sum of \$5,000.

Councilman Dickson then expressed himself as heartily in favor of the amount first named, saying that the park commission was composed of men who were giving a considerable amount of time to the subject of beautifying the city and that they were doing it free of charge, only asking that the city provide them with the necessary funds to carry on the work already started.

Councilman Flygare then stated that out of 110 intersections of streets in the city, only 31 had been provided with proper crossings, and that he was in favor of the city's expending its surplus money on things more necessary than the beautifying of the parks. He was in favor of \$5,000, but thought \$10,000 too large an amount in view of the present financial condition of the city.

Councilman Powers supported Councilman Flygare, saying that he was in favor of doing the most necessary work first, the "donations" to come later.

Councilman Dana was also in favor of expending the money on street crossings, stating that people did not appreciate beautiful parks when they

had to wade through deep mud in order to get within sight of them.

Councilman Peery then stated that he thought the work and faithful effort of the park commission was deserving of at least the courtesy of a conference with the city council, and he moved as an amendment to the amendment that the matter be deferred one week to give the park commission and the city council an opportunity to get together on the subject.

Councilman Flygare stated that he thought the commission had been treated with all due courtesy, inasmuch as it had been given three weeks in which to meet the council and present its wishes.

Councilman Humphris stated that he was in favor of beautifying the city, but not at the expense of the public when the latter was forced to suffer through lack of common conveniences, such as poor street crossings, etc. He said that people in outlying districts had been asked to build sidewalks and put in curb and guttering at considerable expense and that it was no more than fair that their desire for the city to fulfill its share of the work in the way of crossings should be complied with.

Councilman Thomas was against the appropriation of \$10,000, but was in favor of half that amount. He thought that the more necessary work of constructing street crossings should be done first, the beautifying of the parks to come later when the city was in better financial condition.

Councilman Browning then gave a lengthy expression of his views in the matter, stating that the commission wanted \$16,000 and that the \$5,000 suggested would hardly cut and water the grass already planned. He said that if the system already commenced was not carried on and developed along the lines contemplated by the commission, the gentlemen composing the same might as well resign, as the work would simply go back on neglect. He was also in harmony with the idea of the council's meeting with the commission and hearing their side of the matter.

The amendment to the amendment, by Councilman Peery, to defer one week, was then put to a vote, the first being 5 to 4 against such a procedure. The amendment appropriating \$5,000, offered by Councilman Flygare, was then carried by a vote of 7 to 3.

Council then adjourned.

INSTALLED OFFICERS AT ASSEMBLY HALL

An interesting meeting was held at the Trades and Labor Assembly Hall last evening, the principal object of the meeting being to install the officers that had previously been elected. The officers installed were: P. D. Watson, president; Fred R. Turner, vice-president; Theodore Gierce, secretary and treasurer; D. F. Beauchamp, sergeant-at-arms; R. M. Clark, W. G. Watkins and William M. Pigott, trustees.

Delegates to attend the convention of the Utah Federation of Labor in Salt Lake March 8, 1909, were elected as follows: R. M. Clark, P. D. Watson and William M. Pigott. Alternates: D. F. Beauchamp, Fred R. Turner and O. W. Stanley.

It was expected that the assembly would discuss the all-absorbing question of prohibition, but it was not handled in any way whatever. The assembly took into consideration the fact that there was a division among the various unions of the city regarding the matter, some for and some against prohibition, and that it would be unwise for them to discuss the matter in any way whatever. The meeting was well attended and a perfect feeling of harmony prevailed.

MASSACHUSETTS PEOPLE VISIT IN OGDEN

Mr. and Mrs. John Barker of Lawrence, Massachusetts, stopped off in Ogden yesterday to visit their niece, Mrs. C. W. Barnes, while on their way to Sunset, California. Mr. and Mrs. Barker are well along in years and they have spent their past life at Lawrence, but are now going to California to make their home with some of their children, who have become residents of Sunset.

The aged couple regretted very much that they arrived at Ogden on such a stormy day. They had a desire to see the city, but were prevented from doing so because of the excessive fall of snow. This is their first trip to the far west and as a matter of course they are very anxious to see all the best of the country.

Mr. Barker stated that he and his wife were much pleased with the western country and that the things they had seen in Utah had been quite a revelation to them. When advised that the thermometer in Ogden hardly ever registered below the zero mark he

was quite surprised. "Why," he said, "down in Lawrence I have seen the temperature as many as 23 degrees below zero, and we had lots of sleighing, too."

FORMER OGDENITE WRITES STANDARD-EXAMINER

Santa Ynez, Cal., Feb. 3, 1909.
Dear Editor "The Standard-Examiner":

Please find my check enclosed for "The Standard-Examiner." We appreciate the Standard-Examiner very much. It is like a visitor calling every day to tell us all that is doing in the beautiful Junction City; but the Standard-Examiner tells us all the news from everywhere besides, and when I have perused its pages the Associated Press news is well exhausted. If you deem it well I will send an echo to Ogden from the land of sunshine. It is nearly home where the far found Pacific kisses the land of gold; within the poetic sound of this bewildering enchantment rests in pleasing toll your scribe who spent his ripest manhood in your much noted state.

It is gratifying to be a resident of the prophetic Santa Ynez mountains, where the oil fields abound, here may be seen the significant inclines that tell the intelligent prospector to locate a gusher and make a rapid fortune. But it must also be admitted that there are "declines" which are mistaken for inclines and a mistaken experience may prove to be to the tune of \$50,000.

The only dead sure thing here to which there is absolutely no exception is a present salvation through faith in "Jesus Christ," and not a few in these mountains are enjoying the testimony that Abel had, namely, that he was "righteous," God bearing witness to his gift.

I am rejoicing with you in the growth of your city, and doubt not that Ogden will continue to grow at every point until the dream of Ogden's greatness shall be fully realized.

I shall be glad to see your 50 saloons transformed into business blocks; a man that would not be willing for such a change is not a wise citizen. I hope that you will see it accomplished inside of eleven months. It is better that a man should lose 20 barrels of whiskey than to lose his soul. It is better that every beer keg should be emptied into the sewer than to make one single boy a beer drinker. If \$100,000 worth of liquor is lost by any party or parties, directly or indirectly, it is better than that one girl's life should be blighted by the liquor traffic. If real estate depreciates 95 per cent it is better than that one mother's heart should be broken on account of the liquor traffic. If the abolition of the liquor traffic kills Ogden then let Ogden die and "be buried with the burial of an ass."

But instead of Ogden suffering with all the whiskey destroyed, she will rise in fame as the beautiful White City of the Wasatch, where thousands of the best citizens in our land will seek to make their homes.

I am also glad to see the viaduct another demonstration of a great city, and in ten years I will see a new Ogden and we will then all rejoice in a stainless flag and the glorious dawn.

(Signed)
JAMES THOMPSON.

FLORENCE ROBERTS.

"The House of Bondage," in which Florence Roberts will be seen in this city, has already established Seymour Obere as a dramatist of great promise. It is in three acts, the first laid in England and the last two in the Swiss Alps. At the Grand Opera House Wednesday, Feb. 10th. Seats now selling.
